

Finish Your Basement then Live in Paradise

It doesn't take much for a basement to become a paradise. That blank canvas below your living space could easily become your favorite hang out, an inviting room for guests and a quiet place to study. You'll love your new space, especially on those hot days. Call One Stop Home Repair for a free basement remodel estimate.

Large, spacious rooms and ample lighting can make basements very beautiful and inviting. Many people have claimed they would rather spend time in their finished basement than any other place in their home.

Benefits To Finishing Your Basement

Flexibility: The design of your basement is completely up to you, from the placement of walls to the style of wall finishes and flooring. There is no wrong way to design it.

- 1) Many people create bedrooms for their families and guests, complete with a separate bathroom, sometimes a living room and kitchen or kitchenette.
- 2) Your finished basement could be the answer to the perfect entertainment room when you want to watch the big game with your friends.
- 3) It could be the area for your new pool table or game room. The open space and your personal design will make this area a natural place for parties.

Don't be afraid to let your imagination run wild. Our talented carpenters can make any of your ideas a reality.

Income: If your town will allow it, basement apartments are a great way to add extra income and resale value.

Resale: A high demand for homes with lots of space for large families has made finished basements very desirable.

Order Instead of Chaos: Often basement storage is unorganized because the unfinished area is not used effectively. A finished basement provides storage, shelving, and general organization so you don't have to go through dark, dusty, cobweb-filled spaces to retrieve what you need!

Comfort: A well insulated basement is commonly the coolest place in your home during the summer and the warmest in the winter. We use new technologies, specialized products, and proven techniques to make your finished space comfortable – and to keep you from paying outrageous utility bills.

Call One Stop Home Repair today for a free estimate to create the new paradise you've always wanted. Your finished basement will become your favorite space. You will ask yourself why you waited so long.

Ask Handy Howie

What Are Some of the Things to Think About When Remodeling a Basement?

- 1.) If you plan on remodeling your entire basement, don't forget to keep space for the items you currently have stored there.
- 2.) Basements have limited natural light, don't overlook good lighting. You'll want overhead lighting, as well as task lighting. You'll want some electrical outlets too.
- 3.) Be mindful of building codes, especially if you plan on turning your basement into a rental unit.

Photo of the Month

Our team of carpenters and painters work together to make beautiful decks. Call today to get your deck started. Don't forget to ask about composite decking.
